

Psycho-geriatric care

For those who are aging, the psychological changes can be as challenging as the physical – or even more so.

In the spirit of Hospitality, we extend our care to those who are experiencing the mental difficulties that go along with getting older. We offer an integrated approach, ensuring that those with functional or cognitive impairments or behavioural alterations are getting the personal attention and support they need.

Our approach

Our sisters, volunteers, co-workers and lay hospitallers are all acutely attuned to the needs of those who are ageing. We discuss with them the issues and challenges they are facing, and develop care plans to empower them to face the future with strength and dignity.

Our impact

Ageing with dignity is something we believe in strongly, and this belief is at the heart of our psycho-geriatric work. For those patients in our care, this means a better quality of life and the ability to remain independent for as long as possible.
